The Company

Founded in the Emirate of Abu Dhabi, United Arab Emirates (UAE) in 1999, United Engineering and Contracting (UECC) has grown to become one of the leading construction contractors across the UAE.

Since 1999, UECC specializes in complex and top-notch construction & infrastructure projects.

Our portfolio includes some of the country's most iconic buildings and landmarks, from large construction projects, electromechanical works and governmental building refurbishments and renovations.

UECC offers Construction Contracting, Renovation and Maintenance, Electromechanical Contracting and Facilities Management services.

Our established contacts, highly skilled and dedicated team along with our innovative methods and exacting standard for completion have earned us a competitive edge well recognized in the industry.

Longstanding relationships with our clients have played a significant role in providing outstanding construction contracting services to companies and government agencies across the UAE. With our continued commitment to development and change, we look forward to the future and all the challenges and opportunities that it will offer.
